1. INTRODUCTION

1.1 Purpose and Background

The Washington State Department of Natural Resources, hereafter referred to as “DNR” is initiating this Request for Qualifications and Quotations (RFQQ) to solicit proposals from eligible firms interested in doing fuels modification work.

This work was identified within the local area Community Wildfire Protection Plan. The purpose and intent behind this work is to reduce the likelihood of catastrophic wildfire where fuels reduction work will be applied.

1.2 Scope of Activity

The apparent successful contractor will be expected to provide labor, transportation, materials, and equipment for fuels reduction projects. Work will consist of fuel modification, vegetative clearing, tree thinning and pruning, chipping, and debris disposal by hand and/or mechanized crews. Hand crews will consist of a foreman, three or more laborers, a chipper, transportation and all equipment and supplies to perform the tasks. Mechanical crews will consist of mastication or mulching machines with operator, transportation and all equipment and supplies to perform the tasks. The project is located in Klickitat County on Hancock Forest Management Inc. land, and is approximately 120 acres. A map outlining the project boundaries and unit designations is attached as Exhibit B, attached hereto and incorporated herein.

The successful proposer will be expected to secure an access permit from the landowner. A sample access permit is attached as Exhibit D, attached hereto and incorporated herein by this reference.

General prescription/specifications

The following prescription will be followed on the north side of the Glenwood Hwy from the prominent brush edge of the road to a distance no greater than 100 feet, flagged in red. Distance will vary due to limiting terrain:

1. Dead and down material up to 10 inches in diameter will be chipped and the chips scattered over the work site.
2. The limbs of dead and down trees greater than 10 inches in diameter will be removed and chipped and the remaining trunk will be left in place unless several trees have created a piled concentration. In this case, the remaining tree trunks will be separated by at least 10 feet from any other logs and left on site.
3. All vegetation stumps heights will be cut no higher than 2 inches above the ground. All cuts will be a flat or parallel cut to the ground.
4. Standing dead trees with red needles still attached shall be felled and treated using the dead and down prescription as required in item 1 and 2 above.

5. Conifer snags will be felled if within 50 feet of another snag and will be treated using the dead and down prescription as required in item 1 and 2 above. Snags that pose a hazard to crews working in the area will be felled.
6. The Contractor will not cut any green trees from the premises that are greater than 8-inch diameter at breast height without prior approval from the Landowner.
7. Trees 8 inches and greater in diameter (DBH) will be pruned (live and dead limbs) up to a height of 15 feet. Limbs will be pruned when branches are larger than 2 inches diameter (regardless of length) or greater than 2 feet in length (regardless of diameter). No pruning will be done to a height greater than 50% of total tree height. The cut limbs will be chipped on site.
8. Trees less than 8 inches DBH will be spaced leaving 2 feet - 5 feet between crowns. Live and dead limbs will be pruned up to a height of 15 feet. Limbs will be pruned when branches are larger than 2 inches diameter (regardless of length) or greater than 2 feet in length (regardless of diameter). No pruning will be done to a height greater than 50% of total tree height. The cut limbs and stems will be chipped on site. Trees < 3 feet high do not require pruning.
9. Non-coniferous brush will be cut and chipped/ mowed on site unless islands are pre-designated or agreed to by the contract administrator or his designee.
10. Ground disturbance from machinery use shall not exceed 15% on each acre and berms, ruts and other operator caused ground disturbance will be smoothed out to original contours before leaving the immediate work area.
11. If there are pre existing of slash piles within the project boundaries prior to the project work being done the contractor will not be responsible for abatement unless otherwise negotiated with the contract administrator or their designee.
12. Stumps will be flush cut as close to the ground as possible in relation to existing terrain and rocks.

Rate quotes are requested on a per acre basis. A quote form by unit is attached as Exhibit C, attached hereto and incorporated herein by this reference. **This form must be used when submitting bids.**

CONTRACT REQUIREMENTS****A. Recovery Act Reporting Requirements; Section 1512(c) of the Recovery Act**

Contractor acknowledges and agrees that the American Recovery and Reinvestment Act of 2009, hereinafter "Recovery Act" places great emphasis on accountability and transparency in the use of taxpayer dollars. Among other things, it creates a new Recovery Accountability and Transparency Board and a new website--Recovery.gov--to provide information to the public, including access to detailed information on grants and contracts made with Recovery Act funds.

DNR, as a recipient of Recovery Act funds, must comply with the Recovery Act's extensive reporting requirements, including quarterly financial and programmatic reporting due within 10 calendar days after the end of each calendar quarter. B. Registration with Central Contractor Registration (CCR)

Recipients of funds under the Recovery Act shall register with the Central Contractor Registration (CCR) database at www.ccr.gov. General Insurance Requirements

Indemnity

To the fullest extent permitted by law, Contractor shall indemnify, defend and hold harmless State, agencies of State and all officials, agents and employees of State, from and against all claims arising out of or resulting from the performance of the contract. A “claim” as used in this contract means any financial loss, claim, suit, action, damage, or expense, including but not limited to attorneys’ fees, attributable for bodily injury, sickness, disease or death, or injury to or destruction of tangible property including loss of use resulting therefrom. Contractor’s obligation to indemnify, defend, and hold harmless includes any claim by Contractor’s agents, employees, representatives, or any subcontractor (hereafter referred to as “sub”) or its employees. Contractor expressly agrees to indemnify, defend, and hold harmless State for any claim arising out of or incident to Contractor’s or any sub’s performance or failure to perform the contract. Contractor’s obligation to indemnify, defend, and hold harmless State shall not be eliminated or reduced by any actual or alleged concurrent negligence of State or its agents, agencies, employees and officials. Contractor waives its immunity under Title 51 RCW to the extent it is required to indemnify, defend and hold harmless State and its agencies, officials, agents or employees.

Contractor shall, at all times during the term of this contract at its cost and expense, buy and maintain insurance of the types and amounts listed below. Failure to buy and maintain the required insurance may result in the termination of the contract at State’s option. If the Contractor fails to procure and maintain the insurance described below, Contractor shall be in material breach of this contract. In case of breach, State, at its election, shall have the right to terminate the contract or to procure and maintain, at Contractor’s expense and substitute insurance with right of offset against any money due Contractor.

All insurance and surety bonds should be issued by companies admitted to do business within the state of Washington and have a rating of A-, Class VII or better in the most recently published edition of Best’s Reports. Any exception shall be reviewed and approved by the department’s risk manager before the contract is accepted. If an insurer is not admitted, all insurance policies and procedures for issuing the insurance policies must comply with Chapter 48.15 RCW and 284-15 WAC.

State of Washington, Department of Natural Resources shall be provided written notice before cancellation or non-renewal of any insurance referred to therein, in accord with the following specifications:

1. Insurers subject to Chapter 48.18 RCW (admitted and regulated by the Insurance Commissioner): The insurer shall give the State 45 days advance notice of cancellation or non-renewal. If cancellation is due to non-payment of premium, the State shall be given 10 days advance notice of cancellation.
2. Insurers subject to Chapter 48.15 RCW (surplus lines): The State shall be given 20 days advance notice of cancellation. If cancellation is due to non-payment of premium, the State shall be given 10 days advance notice of cancellation.
3. Before starting work, Contractor shall furnish State of Washington, Department of Natural Resources with a certificate(s) of insurance, executed by a duly authorized representative of each insurer, showing compliance with the

insurance requirements specified in the contract and, if requested, copies of policies to State. The certificate of insurance shall reference the State of Washington, Department of Natural Resources, and the contract number.

Contractor shall include all subs as insured under all required insurance policies, or shall furnish separate certificates of insurance and endorsements for each sub. Sub(s) must comply fully with all insurance requirements stated herein. Failure of sub(s) to comply with insurance requirements does not limit Contractor's liability or responsibility.

The state of Washington, Department of Natural Resources, its elected and appointed officials, agents and employees shall be named as an additional insured on all general liability, excess, umbrella, and property insurance policies.

All insurance provided in compliance with this contract shall be primary as to any other insurance or self-insurance programs afforded to or maintained by State.

Contractor waives all rights against State for recovery of damages to the extent these damages are covered by general liability or umbrella insurance maintained pursuant to this contract.

If Contractor is self-insured, evidence of its status as a self-insured entity shall be provided to State. If requested by State, Contractor must describe its financial condition and the self-insured funding mechanism.

By requiring insurance herein, State does not represent that coverage and limits will be adequate to protect Contractor, and such coverage and limits shall not limit Contractor's liability under the indemnities and reimbursements granted to State in this contract.

The limits of insurance, which may be increased by State of Washington, Department of Natural Resources, as deemed necessary, shall not be less than as follows:

Commercial General Liability (CGL) Insurance

Contractor shall maintain general liability (CGL) insurance covering claims for bodily injury, personal injury, or property damage arising on the property and/or out of Contractor's operations and, if necessary, commercial umbrella insurance with a limit of not less than \$1,000,000 per each occurrence. If such CGL insurance contains aggregate limits, the General Aggregate limit shall be at least twice the "each occurrence" limit. CGL insurance shall have products-completed operations aggregate limit of at least two times the "each occurrence" limit

CGL insurance shall be written on Insurance Services Office (ISO) occurrence form CG 00 01 (or a substitute form providing equivalent coverage). All insurance shall cover liability arising out of premises, operations, independent s, products completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another party assumed in a business contract), and contain separation of insured (cross liability) condition.

Employer's Liability ("Stop Gap") Insurance

Contractor shall buy employer's liability insurance, and, if necessary, commercial umbrella liability insurance with limits not less than \$1,000,000 each accident for bodily injury by accident or \$1,000,000 each employee for bodily injury by disease.

Workers' Compensation Coverage

Contractor shall comply with all State of Washington workers' compensation statutes and regulations. Workers' compensation coverage shall be provided for all employees of Contractor and employees of any sub or sub-sub. Coverage shall include bodily injury (including death) by accident or disease, which exists out of or in connection with the performance of this contract. Except as prohibited by law, Contractor waives all rights of subrogation against State for recovery of damages to the extent they are covered by workers' compensation, employer's liability, commercial general liability, or commercial umbrella liability insurance.

If Contractor, sub or sub-sub fails to comply with all State of Washington workers' compensation statutes and regulations and State incurs fines or is required by law to provide benefits to or obtain coverage for such employees, Contractor shall indemnify State. Indemnity shall include all fines, payment of benefits to Contractor or sub employees, or their heirs or legal representatives, and the cost of effecting coverage on behalf of such employees.

Business Auto Policy

Contractor shall maintain business auto liability and, if necessary, commercial umbrella liability insurance with a limit not less than \$1,000,000 per accident. Such insurance shall cover liability arising out of "Any Auto." Business auto coverage shall be written on ISO form CA 00 01, or substitute liability form providing equivalent coverage. If necessary, the policy shall be endorsed to provide contractual liability coverage and cover a "covered pollution cost or expense" as provided in the 1990 or later editions of CA 00 01. Contractor waives all rights against State for the recovery of damages to the extent they are covered by business auto liability or commercial umbrella liability insurance

In such event, this Agreement shall be construed as if it did not contain the particular provision that is determined to be invalid or unenforceable. No such determination shall affect any provision of this Agreement to the extent that it is otherwise enforceable under the laws of any other applicable jurisdiction

The Party affected by such Force Majeure shall give prompt written notice to the other Party of the nature and probable duration of such Force Majeure, and of the extent of its effects on such Party’s performance hereunder. Each Party shall, in the event it experiences Force Majeure, use all commercially reasonable efforts to eliminate such Force Majeure and/or its effects on such Party’s performance hereunder insofar as is practicable and with all reasonable dispatch; provided, that neither Party shall be obligated to expend monies in order to eliminate Force Majeure and/or its effects, if in such Party’s sole judgment, such expenditures would be economically unjustifiable.
